**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-17, drawn to an O/W emulsifier.

Group II, claim(s) 18-20, drawn to a method of making an emulsion comprising an O/W emulsifier.

Group III, claim(s) 21, drawn to a cosmetic formulation comprising an O/W emulsifier.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature is the combination of a glyceryl oleate citrate and a viscosity modifier. However, this combination is disclosed in the Japanese Publication number 2003061572A (see IDS filed) in claim 1, paragraphs 0007 and 0008).
